

Student Spotlight: Natalie Bullis

Natalie is a college student that took *MissionShift* while in the U4C program. Natalie said that *MissionShift* gave her new insights into different cultures and the understanding of the cultures that are present, not only in Minnesota, but also in the general society. She felt that this course also taught her a lot about the Twin Cities and how she could better understand them in order to build ministries. Natalie stated, “*MissionShift* taught me to always be listening to people who are different than me who I can not only do ministry with, but who I can learn from.” She believes that *MissionShift* is not just for those going to ministry, but anyone who will run into any cultures in their work and everyday life. Natalie recommends the *MissionShift* class to everyone. She said, “You will learn so much, not only about the city and other cultures, but also about yourself. This class will grow you as it did me.”
